The from in which the Attorney General makes this demand is also liable to objection. We think that a questionable demand upon the State like this, by an other of the State, should not be made by an experience proceeding like that of mandamns. In such a proceeding there is no defendant notes.

which a crizen having a demand against the Nate should proceed and a Nate there should not proceed and a Nate there should not be after the same rule as a citizen it should be a very clear case to instify the party proceeding by way of mandamns.

We cannot believe that the Judge of the Nixth District Court will decide this caseagainst the State, and we take his heritation to mean that he doubts the merit of the Attorney General's demand.

It would seem that the Attorney Generalized considers the article 1% of the Constitution of 18% to have superseded the act of the constitution of 18% to have superseded the act of the constitution asys nothing about the per cent on sume collected. That was allowed only when the salary was \$3500.
