THE BARBECUE FIRE EXTINGUISHER.

The wonderful effective invention for

extinguishing fire, after having been de-

clared invalid in the late case of the

Barbecue Extinguisher, on Canal street,

in this city, has been awarded the first

premium—a beautiful silver medal—at the

late Texas State Fair, where it was com-

peted by a single man using one of the

best extinguishers. Mr. B. A. Bradley

is the general Southern agent, and Mr. L.

Gilbert is the general agent for the State

of Louisiana.

These extinguishers are certainly a

great invention, and one which would

be a considerable saving to every com-

mercial establishment, and one which

every man who uses one of them should

own. They are for sale at the

following prices:—

Small size, with one gallon of water,

with one gallon of soda water, and

with one gallon of kerosene, each

with one gallon of water, and one

gallon of soda water, and one gallon

of kerosene, each with one gallon
