

DISPLEASED WITH THE STATUE

Carl Rohl-Smith's bronze figure of Iowa was placed on the soldiers' monument at Des Moines the other day. It represents a woman nude to the waist seated with her face uplifted and holding her breasts out with her hands, the artist's idea being that Iowa offers sustenance to the world.

BOY NOT THE MONKEY.

Lesson in Politeness is Taught by a Youngster in a Skyscraper. It happened in the passenger elevator in one of the skyscrapers at Chicago. The people had filled it up so that it would not rise. The elevator boy tugged at the rope, but the car refused to move. Then he said: "Some gentlemen, please step off; the car's too full!" No one moved. Then he tried it again. "Will some lady please get out. There's too many people aboard." His second appeal was in vain.

FRANK OF LIGHTNING STROKE.

Bed Demolished in a House, But Occupants Escape Without Shock. C. I. Spencer and family, who live two miles south of Osborn, O., had a narrow escape from death by lightning. Mr. Spencer is a merchant at Osborn, and lives on his claim two miles south of the town. Lightning struck the chimney flue and entirely demolished it. Mr. Spencer, wife and baby were sleeping in a room on a bedstead which was torn almost to pieces and the wire springs were melted in several places. Neither of the occupants of the room was hurt or even shocked.

BELIEVES ANDRE IS SAFE.

Arctic Explorer Tells Why He Thinks So. Arctur B. Baldwin, an Arctic explorer of some note, when seen by a reporter in Brooklyn the other night, declared his belief that Andre will come back safely from his journey in search of the north pole. Mr. Baldwin has just returned from Europe, where he talked with leading scientists, all of whom share his belief.

WESTERN AUSTRALIA.

The territory comprising western Australia, according to the latest computation, covers nearly 1,000,000 square miles and constitutes about one-third of the Australian continent. The area of this single colony is larger than that of eight leading countries in Europe combined.

SWISS SAVINGS DEPOSITORS.

In a total population of a little over 3,800,000 Switzerland now has over 1,000,000 depositors in savings banks, with an average for each family of \$275 in cash deposits.

ENGLISH ARE HEAVY.

On an average an Englishman is 14 pounds heavier than a Frenchman.

CHIPPEWA INDIANS WED.

Two Branches of the Ancient Tribe United in Wisconsin. A Bit of Real Romance Surrounding the Lives of the Bride and Groom—An Interesting Episode. A romantic wedding took place the other day at Buffalo Bay, Lake Superior, Wis., in which 500 Indians witnessed the union of two distinct branches of the ancient Chippewa tribe. Young Buffalo, the groom, is a grandson of the ancient Chief Buffalo, of the Chippewas of northern Wisconsin, who was buried at Lapointe in 1837, and he is a son of Antoine Buffalo, the present chief of the Red Cliff Chippewas. Jeannette Neveu, the bride, is a descendant of the famous peace chief, Wanbejig (the White Fisher), the protégé of Schoolcraft, the author. Her father is William Neveu, of Lapointe. Neveu was a drummer boy in the union army during the war of the rebellion. About 30 Lapointe Indians were in the union army, Wanbejig at the head of one clan of the Chippewas and Buffalo was at the head of the other. An episode between Wanbejig, chief of the Chippewas, and Waubesa, chief of the Sioux, is related. It took place on the St. Croix river. The Sioux had crossed the river to wipe out the Chippewas, when Wanbejig challenged the chief of the Sioux to mortal combat. The thousands of warriors on either side were astounded to see the two chiefs suddenly throw down their arms and embrace. This remarkable ending of the war was owing to the discovery that these two chiefs were half brothers, Wanbejig's mother having been stolen by the Sioux, one of whom she married, and Waubesa was her son.

VALUE OF OIL AS A FUEL.

May Be Used on Naval Vessels If Experiments Prove Successful. The secretary of the navy has ordered Lieut. Nathan Sargent to proceed at once to the oil fields of Pennsylvania, where he will make a careful investigation of the various grades of petroleum used in that region, with a view of ascertaining its value for marine engines. Upon the conclusion of this work he will report to the authorities in charge of the Newport torpedo station and plans will be drawn up for an oil engine which will be placed in one of the new torpedo boats now being built by the Hercules.

CUT WEEDS FOR NOTHING.

Columbus Contractor Was Had When He Got the Lay of the Land. Probably the maddest man in the city of Columbus, O., the other day, was Frank Bentz, one of the men who secured a contract recently from the city health department to cut the weeds on vacant lots between Long street and Mount Vernon avenue as far east as the corporation line. By the terms of the contract the contractor had to look to the owners of the lots for his pay. Mr. Bentz employed five men and completed the district assigned to him the other day. In fact, he more than completed it. He found a 15-acre grove east of Woodlawn avenue in which there was a heavy growth of weeds. The contract price amounted to about \$4 an acre and Mr. Bentz saw a nice chance to make \$60 easily. Accordingly he put his men to work and the weeds were all mowed down in a couple of days. The owner of the grove was a Mr. Taylor, who lives on Woodlawn avenue. Just as the last weeds were being cut Mr. Taylor walked over into the grove and thanked Mr. Bentz for his job.

NEW SPECIES OF FRAUD.

A Warning Against Certain Individuals and Bureaus. The civil service commission is much annoyed by the operations by a number of individuals and bureaus, claiming to have special information of value to applicants for government offices and special facilities in preparing them for civil service examinations. Many letters are now reaching the commissioner of the country inquiring whether these claims are genuine. Special pains are being taken to call attention to the fact that the pamphlets of instruction and the examination schedules which are furnished gratis by the government to all applicants, contains all the information about the times and places of examination, the methods of marking paper, certifying eligibles and the prospect of securing employment, and also sample examination questions. "No person," says the commissioner, in an announcement, "has any information of importance to applicants concerning examinations which cannot be obtained without cost from the commissioner. All claims to the contrary, therefore, are misrepresentations. Letters in regard to examinations and other business of the commission should not be addressed to members of congress or other persons not connected with the commission, as this only causes delay and does not assist the applicant."

TO ENTERTAIN A PRINCE.

Prospective Visit to This Country of Son of Duke and Duchess of Teck. A dispatch to the New York Journal from Lenox, Mass., says: Aristocratic residents of Lenox are anticipating pleasantly the contemplated visit of Prince Alexander George, youngest son of the duke and duchess of Teck. The duke will be the guest of Mr. and Mrs. Frank Burrell-Hoffman at their magnificent country seat, Brookhurst. The date of the prince's arrival is not fixed, but preparations are in progress for the reception of a royal personage.

WHEAT CROP OF CANADA.

The wheat crop of Canada this year will be over 50,000,000 bushels, or fully 10,000,000 bushels more than last year. The increase is chiefly in Manitoba, where the harvest is now in progress. In Ontario there has been a good deal of damage by rain.

SPEED OF THE ROYAL TRAIN.

Nearly everyone has traveled 60 miles an hour on the railway except the queen, who has never experienced the sensation of whizzing through space so quickly. The speed of the royal train never exceeds 40 miles an hour.
