ET We are acquainted with the preparation of Sarasparills manufactured by the new choosiest stream process, a sl, havily made use of it in our practice, believe it to contain all the active principles of Sarasparilla in a highly concentrated forms, and as a preparation we reterm it as one of the best we have ever not with.

We have frequently prescribed the new chemical preparation of Seyasparille, prepared by the newly invested steam process in our practice, and always found it to answer an excellent purpose in cases where Sarasganila was applicable.

Our knowledge of the article has not been limited, and we can freely my that it is the best preparation we have ever used.

1 It is propriete—Dear Str. I have made use of your preparation of Saramarilla and Pills in chloshe rhousanth affections with the most decided success.

Yours, &c.

New Orleans, June 20th, 1839.

To the proprieter of the Satesparilla Syrup and Pills—Sir. My little boy, new three years of age, has been affected with a scrafulous humor since he was three menths old. One menth since I was induced to commonce the use of you's Saramarilla that is prepared by steem, and I shap becomen in enjug that he has gradually improved under its use, and is now entirely free from any external appearance of the disease. Yours, &c.

[Extract of a lett greecived from Dr. R. S. Walton, one of the ablett and most respectable practitioners in the southers states.]

To the preprietor—Dear Sir.—I am nearly out of Saramarilla spain, and if you please, you may oned my three doson hottles—also, three dosons bottles—also, three dosons bottles, and in chronic guerral debitty from almost any carried with a scrottlar habit. Also, in secondary syphilis, and in chronic guerral debitty from almost any carried with such drawpeus useful. I think it is the best preparation of Sarasparilla I ever used.

With much iteration of the street from Dr. Warren, just received from Natchez, (Miss — Aux 181s; 1859.)

[Extract of a letter from Dr. Warren, just received from Natchez, (Miss.)—Aug. 21st, 1859.]
Dear Sir—Having for the last year in my practice used your concentrated compound symp of Saraparille, with much satisfaction to myself and benefit to used your consentrated compound syrup of Garapacille, with much satisfaction to myosif and benefit to
my patients.

I have so harisans in declaring, that I believe it to
be one of the most useful preparations in disasses for
which Sarsapardli is seemby preceived.

Yours, de. de. BENJAMIN WARREN.

[From the Pennsylvanian P. Enquirer, May 13, 1839.]

Sarsaparilla—The vitue of this shruh an aparifer
and strengthener of the human system, ospecially of
the blood, have been long since established, and are
now universally known; the best medical authority is
in their faver, and the testimenty of the profession to
this point is atsust if not quite unanimous. The only
apersion is not tells form in which they one he best
adapted to general use. The College of Pharmacy
and Physicians prove this; it has then attained the
rebristed highly and richly concentrated compound
syrup of Sarsaparilla, propared by a new chessical
atom processe by a selemberat chemist, who has deveted much attention to the subject. These who scensionally mapert to any purifier of the bload, will find
that an excellent som. We speak from experience, as
we have usual those betties cornelves and hours it to be
good.

we are used time bettier corrected and have it to be good.

[From the Boston Daily Courier and Adverthor.]

The highly chacastrated compound syrup of Barmparilla is advertised in our page. It enjoys through out the United States a reputerish an appraised in the purifying of the blood, physicians of the highest standing recommend it—iet nene complain of the impurerate of the blood, when by a few battles of this remedy they can cure themselves, and be free from any contaneous evention. The blood must be pure to be healthy. Take the Strangarith then, and Champagne or ald Maladrin in the more than the vina current which will convex through your voice. It is a good medicine, and is reflected.

At the solisitates of Dr. Duey, to when I feel under many obligations, I obserfaily high before the public a cartifagle of the happy official is have derived from using the compound syrue of flexing-neiths, a proposation present for second. But sides from my gredende which is gengaine, I would heartily submight to those expression for the broads of those who may be sheering underst dustine affection. For three or four years, I have been solfring from weak and inflament eyes. Very much of that time I had not been able to use them unamined and often not at alt, at the same time painful in the extreme. At times I was almost reduced to blindness, and tortuged with the pain and irritation, I have treat all the eye water in me, but alike with but little success, and find concluded that I must carry my old see thousands and according to the superior of the submarks and the success.
